

Flying high as an OAC contractor

A refreshingly different service

Through highly flexible and innovative working methods and practices, OAC is proud to operate on an extremely competitive fixed 10% margin, which is instrumental in successfully securing contracts for our contractors.

In addition, OAC supports its contractors by providing them with PI cover and offering important supplementary benefits such as paid release for CPD, advice from OAC actuaries at any time, and free trial access to Mo.net[®] financial modelling software.

As an actuarial firm we fully understand the changing needs and requirements of our contractors. We are committed to working with them so that they can achieve their personal and business objectives.

Contractors are quickly realising that OAC is the preferred choice for benefits and winning contracts. Experience the difference yourself and register your interest on our website today.
